

detail::object_api< handle >

handle

object

dtype

```
graph BT; dtype --> object; object --> handle; handle --> detail["detail::object_api< handle >"]
```

The diagram illustrates a vertical hierarchy of four components, each enclosed in a rectangular box. From bottom to top, the boxes are labeled 'dtype', 'object', 'handle', and 'detail::object_api< handle >'. Vertical arrows point upwards from 'dtype' to 'object', from 'object' to 'handle', and from 'handle' to 'detail::object_api< handle >', indicating a directional relationship or inheritance between the levels.
